

ACOM 1000

wzmacniacz mocy KF ACOM 1000 - karta katalogowa (english version)

HF + 6 m LINEAR AMPLIFIER

Cool 1000 W on all HF bands + 6 m.

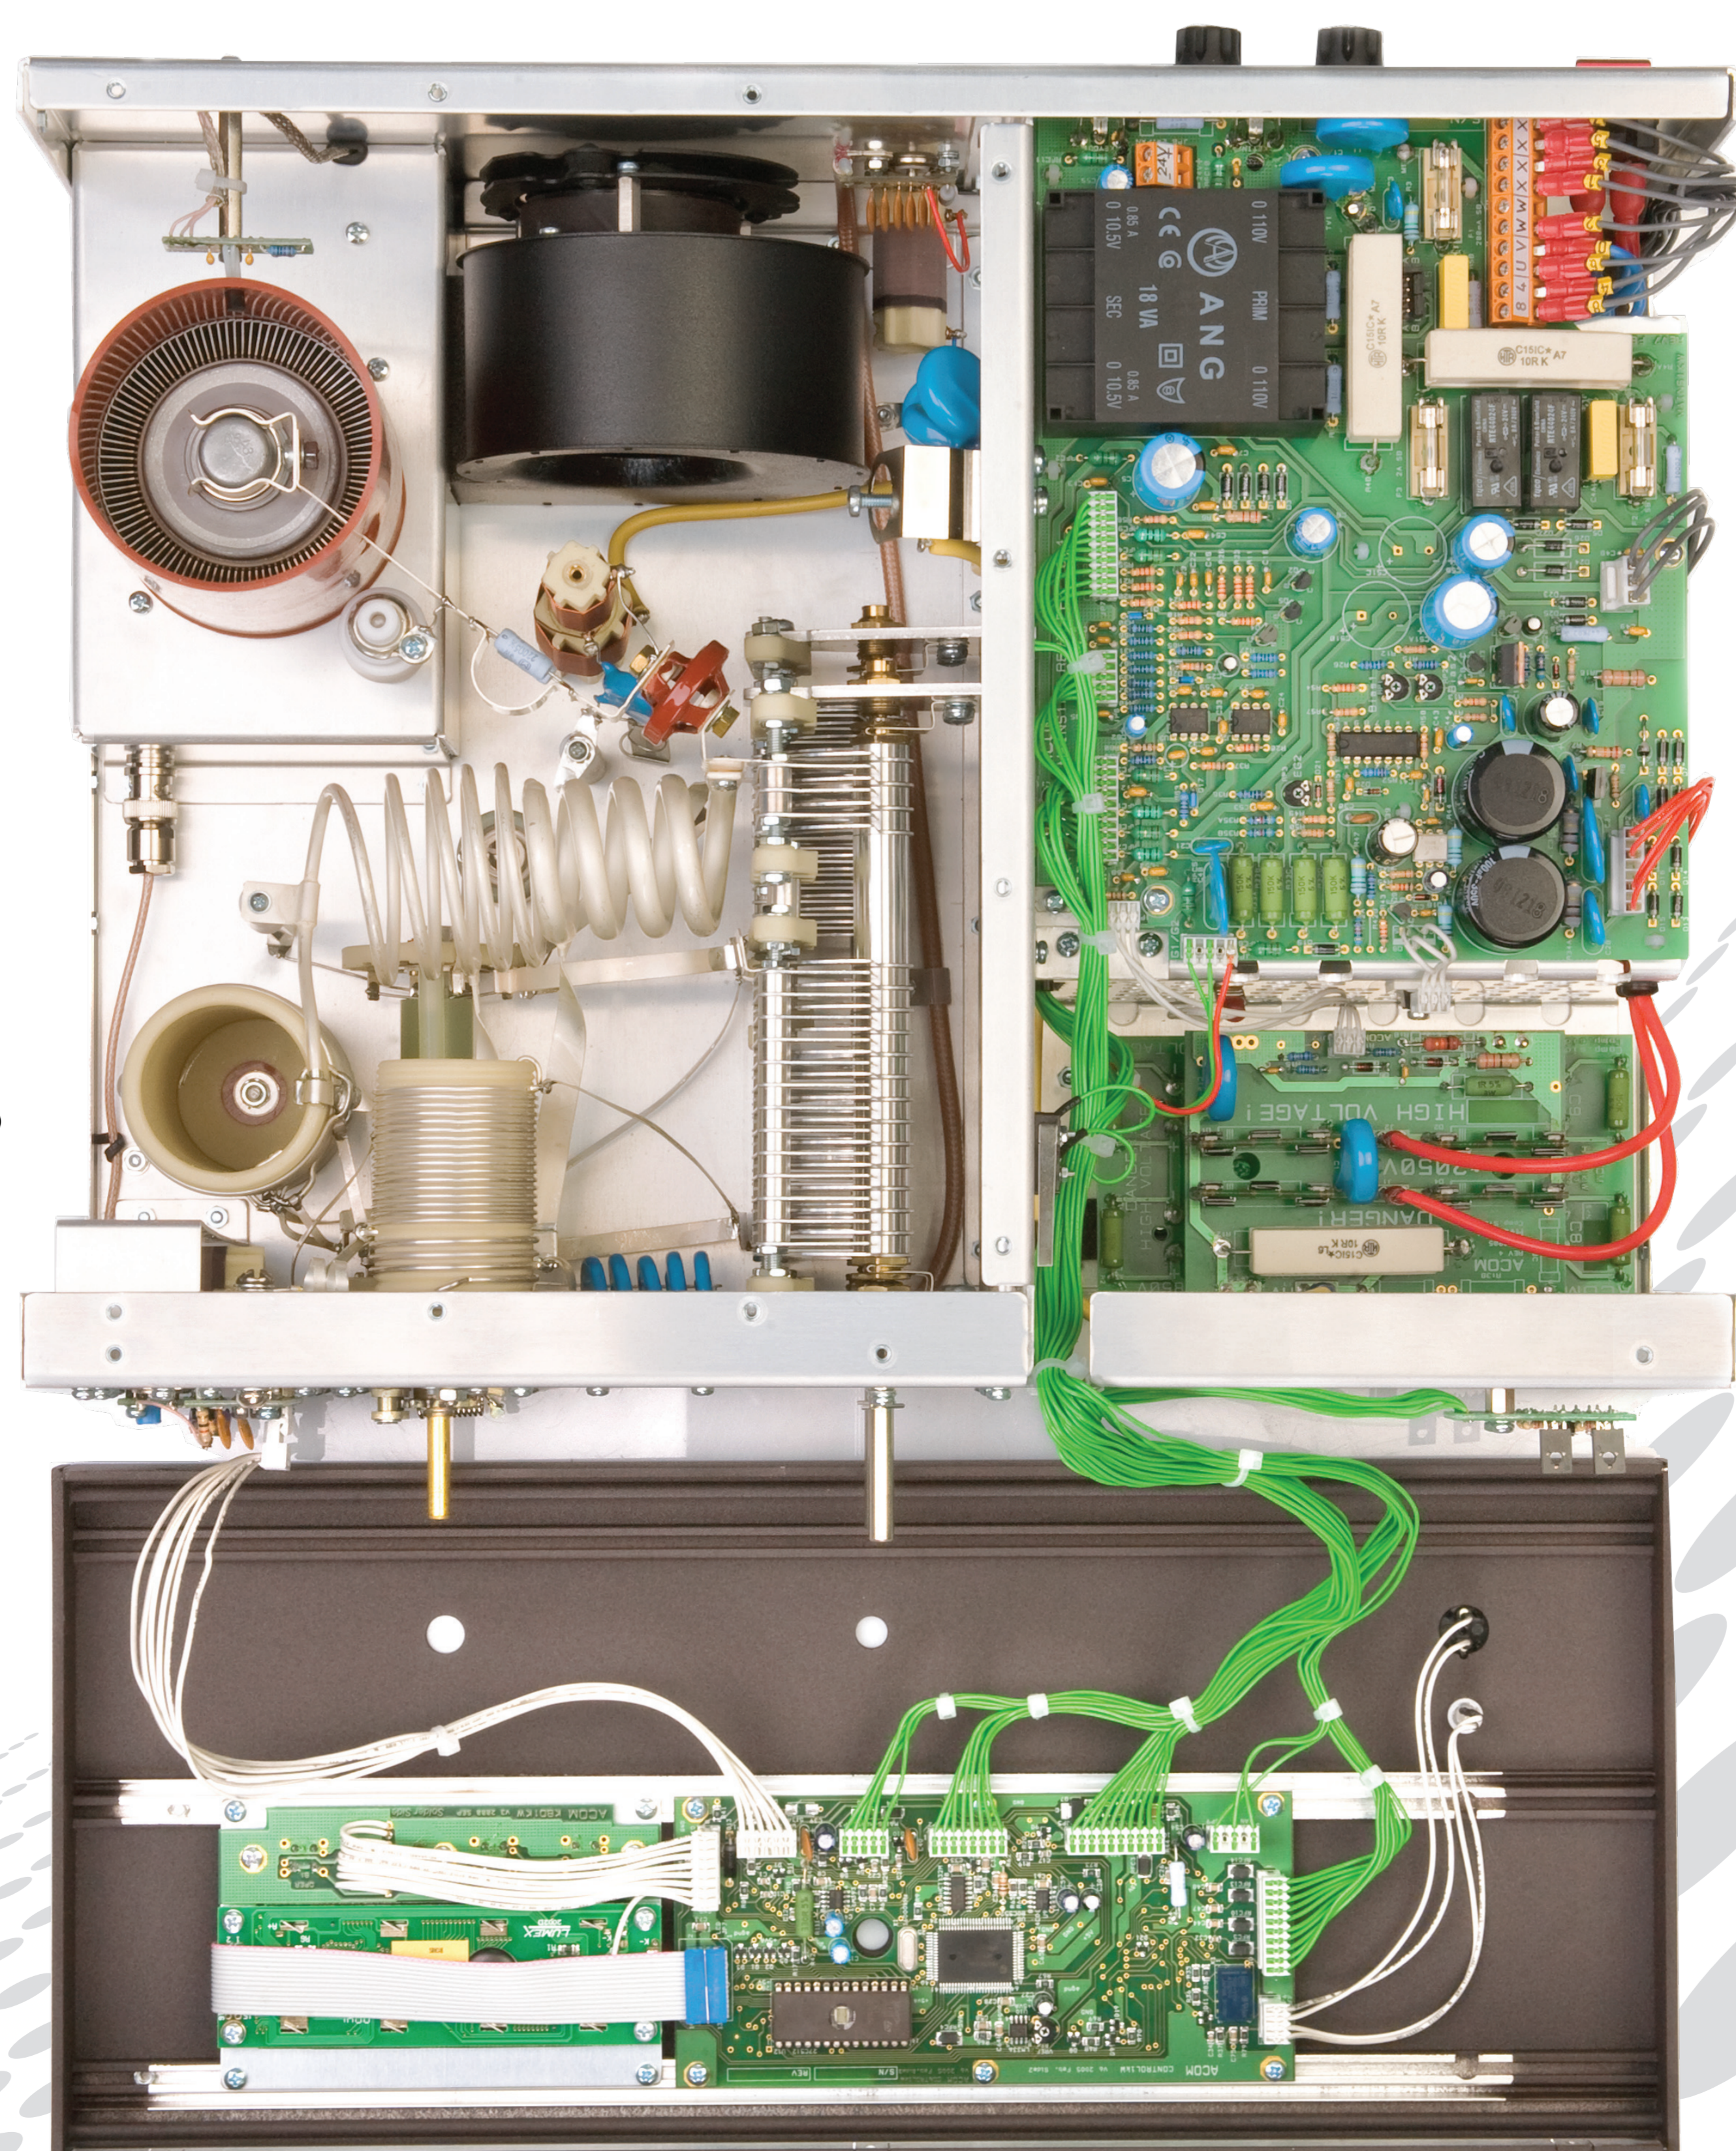

Suitable for DXpeditions and fixed operation. A single Svetlana 4CX800A (GU74B) high performance tetrode is employed.

Easy to operate

The plate-load True Resistance Indicator (TRI) is an ACOM innovation that provides quick and precise tuning which, together with the automatically controlled input attenuator, helps the operator to match antennas typically in less than 10 seconds. No antenna tuner needed for VSWR up to 3:1.

LCD comment display

Text messages, 12 parameters, and strip peak-reading PEP meter displayed.
